Reports

Tasks completed from previous week:
1. Justification for selecting specific architecture pattern — COMPLETE
2. Logical and Physical Diagrams — COMPLETE
3. Component Diagram — COMPLETE
4. Data Flow Diagram — COMPLETE

Progress of the sprint is underway, Matthew has completed 6 of his tasks.

Unfinished business

Development team work on the sprint to catch up with the burn-down chart.

New business

Tasks to be complete by next week:
1. Finalize the UI designs required for Smart City Project Sprint 1.
   a. mock-up screens for the user stories that have not yet implemented in Sprint 1.
2. Upload all the user interface designs required for Smart City Project Sprint 1 into GIT repository.
   - If the team has decided to use the development environment directly for UI design, team may take screen captures of the already implemented user interfaces and upload into GIT repository.

Kurtis - begin work on the smart cities UI with bootstrap.
Everyone - Create and design pages for the smart cities project.

Continue work on the sprint 1.
Matthew Swan:
Story 1 - As a user I am presented with the login/sign-up page so that I may login or create an account.
Story 2 - As the user I want to be able to create an account on the website so that I can login and use the website.
Story 3 - As a registered user I can login with my credentials so that the website is catered to me.
Kurtis Mason:
Add input on Matt's Story 3.
Story 4 - As a user, I want to have my password salted so that it is difficult to be cracked.
Steve Nguyen:
Story 5 - As a student/tourist/businessman, I want to be able to browse information about the city, so that I can see relevant information.
Story 6 - As a businessman/tourist, I want to be able to browse hotels so that I can see relevant information about these hotels.
Justin Manche:
Story 7 - As a businessman I want to be able to view information about industries.
Story 8 - As a student I want to be able to browse colleges and libraries so that I can see relevant information on colleges and libraries.
